Account Names

Preferences → Internet Banking Options → Friendly Account Names

The Friendly Account Names screen is used to create and edit user defined names for the displayed accounts. Once a name has been created, that name will display throughout Online Banking instead of the account number.

NOTE: *If your bank offers remote deposit capture and there is duplication of names or useage of special characters in these fields, this will cause errors during the registration process.*

Use the sort order column to indicate the order the accounts should display. Sorting will only take effect per account type. For example, you cannot sort checking and loan accounts so they display in a mixed order.
